

PROCESSING INFORMATION

SL OCEAN

Aqua, Hollywood Blue,
Hollywood, Rainbow, Silver, Gold,
Anthracite AR, Iceblue AR

MATERIAL REQUIREMENTS

SL OCEAN design panel (self-adhesive or non-adhesive)

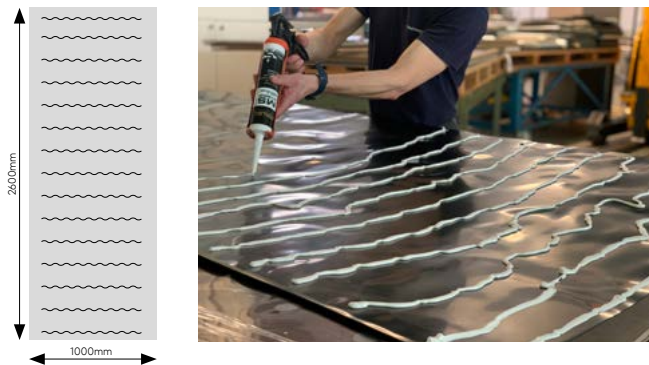

Depending on the type of mounting: screws, cartridge adhesive, putty adhesive, spacers, strongly adhesive double-sided tape.

WE RECOMMEND TO KEEP AN EXPANSION JOINT OF 3 MM!

WALL MOUNTING

Bonding:

- » Self-adhesive SL OCEAN SA design panel
- » With cartridge adhesive (slightly lower adhesive consumption with bead application along the panel width).

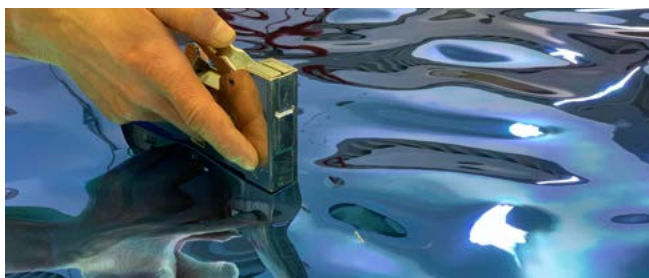

Mechanical mounting:

- » With screws or spacers. For mounting with screws, pre-drilling of the panel and use of round head screws is recommended!

Pre-drilling: Drill diameter = screw diameter + 1mm

Temporary mounting (e.g.: use in shopwindow):

Design panels can also be mounted with tacker (staple)

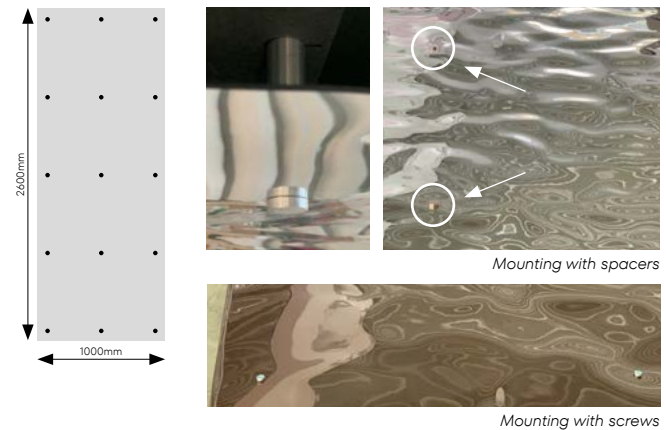

CEILING MOUNTING

Applications in the ceiling area must be mounted mechanically. Due to the structure, mechanical mounting (screws, spacers) is generally recommended.

Mechanical mounting:

- » With screws/ spacers (mounting at 15 points recommended).
- » Screwing on a stable substrate (e.g.: substructure of plasterboard, substructure of MDF or directly on MDF from a thickness of 16 mm, concrete, ...)

Pre-drilling: Drilling diameter = screw diameter + 1mm.

Mechanical assembly with gluing:

In combination with mechanical mounting, the design panel can be additionally glued with cartridge adhesive or putty adhesive or self-adhesive panels can be used.

ATTENTION:

For easier mechanical assembly, strongly adhesive double-sided tape can be used for short-term fixation of the decorative panels.

ADHESIVE RECOMMENDATIONS

Cartridge adhesive: K1-Hybrid adhesive: Bostik H551 Supergrip Multi, Ramsauer 640

Putty adhesive: Bostik Ardaflex® Multi (tooth spatula B3)

SL OCEAN

Aqua, Hollywood Blue, Hollywood, Rainbow, Silver, Gold, Anthracite AR, Iceblue AR

POSSIBLE FINISHES

Flame retardant version (FR):

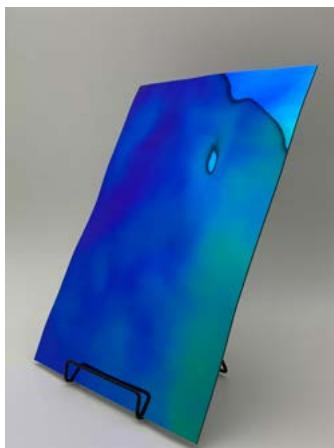

FR version is possible for the colour variants Hollywood, Hollywood Blue, Silver, Gold, Iceblue, Anthracite.

Scratch resistant version (AR):

SL OCEAN decor panels are highly scratch resistant in the Anthracite and Iceblue colour variants. Other colours available on request (AR)

Self-adhesive finish (SA):

A self-adhesive finish can be made for all four colour variations. The reverse side of the SA decor panels is coated with high-quality and highly adhesive K66 glue. The design panels can be glued to absorbent and non-absorbent substrates during wall mounting without additional adhesive.
