

# FSG PLASTIC CLEANER TYPE 925 PLUS

For a streak-free removal of soiling and staining on plastic surfaces

## Uses

Cleaner for manual application and for the use of spraying units. For a streak-free removal of impurities on plastic surfaces, e.g. ABS, melamine, PE, PP, PVC, etc.

## Properties

- cleans without leaving streaks or film residues on surfaces
- dries quickly and without leaving residues
- minimum consumption for different applications, since individual addition of a retarder is possible
- made mainly from herbal raw materials

## Processing Instructions

Apply plastic cleaner generously to a soft, undyed cotton cloth and distribute it.

**Note:** do not use cloths made of synthetic fibres!

## Product Data

Physical state: liquid

Colour: reddish

Odour: alcohol, slightly paraffinic

Shelf life: 2 - 3 years

## Safety Instructions

- highly inflammable
- keep away from sources of ignition - no smoking
- do not breathe vapours
- do not empty into drains
- use in well-ventilated areas only

Extract from the law. For further information please see label and Material Safety Data Sheet.

## Disposal Instructions

- do not let the material enter the sewerage system
- return empty containers to the manufacturer or drain and vent them completely and recycle them.

For further information see Safety Data Sheet or ask your local Waste Management Office.
