Due to the current situation there could be a limited international availability.

Instructions for use

Take about 3 ml undiluted liquid onto the dry hands and rub in for about 30 seconds until the hands are completely wet. The hands have to be kept moist with the undiluted liquid during the exposure time.
Repeat the procedure for an efficacy against Noroviruses, so that a total active time of 1 minute is ensured.

Hazard warning

Warning:
Flammable liquid and vapour. Causes serious eye irritation. May cause drowsiness or dizziness. If medical advice is needed, have product container or label at hand. Keep out of reach of children. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.

If eye irritation persists:

Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Store locked up. Dispose of contents/container according to local requirements. For further information, please check the safety data sheet of LUMOSENS® Anti Sept on LUMOSENS.EU.

This information has been carefully checked, should not and cannot be legally binding and do not exempt you from own tests of the products supplied by us as to their suitability for the intended applications. Optionally, methods need to be adapted to the specific requirements in each case.
